

## Department of Chemical & Biomolecular Engineering: Rotation Preference Form

Submission Deadline: [August 31](#)

### Rotation Labs

Each graduate student after presentations by the faculty the first week of the fall semester must turn in their preferred list lab rotations. Faculty may also provide documents in a shared Google Drive for students to further investigate research options (this will be provided by Dr. Klauda). The list should be ranked by preference with the first being the top choice. Due to high demand projects, we cannot guarantee your top three choices will be able to be assigned so please list 5 faculty. Please email this list to Dr. Klauda ([jbklauda@umd.edu](mailto:jbklauda@umd.edu)) by **5pm on August 31<sup>st</sup>**.

### *Ranked Faculty Labs*

Please list your preference for faculty labs to do a rotation
